QUEST Newsletter

Freddie Fu Sports Medicine Scholarship Program

UPMC Sports Medicine is proud to once again offer the Dr. Freddie Fu Sports Medicine Scholarship Program in 2026. The scholarship program was developed to increase student interest in a career in sports medicine. One scholarship for the amount of \$2,000, minus taxes, will be awarded to a western Pennsylvania resident entering his/her senior year of high school in September 2026 in return for a six-week summer internship (20-22 hours per week for six weeks in a row) at the UPMC Freddie Fu Sports Medicine Complex and the UPMC Lemieux Sports Complex.

The recipient will have the opportunity to observe patient evaluation, treatment, and rehabilitation by physical therapists and athletic trainers, observe clients in the Sports Performance Department, and observe surgery with UPMC orthopedic surgeons.

For more information and application instructions please see their [Scholarship Program Website](#) link. The application is also on the QUEST Schoology page. Application deadline is April 11th.

IMPORTANT DATES:

- 3/3: US History Bee – QRT
- 3/4: UPMC Sports Medicine Career Day
- 3/4: Math Madness – QRT
- 3/4: DNA Day Essay submission deadline
- 3/5: National Geography Bee–QRT
- 3/6: National Humanities Bee
- 3/7: FC Hack Hackathon
- 3/8: Sophomore course requests due
- 3/11: Math Madness – QRT
- 3/12: Freshmen course requests due
- 3/13: Stossel Essay submission deadline
- 3/16: National Honor Society application meeting – QRT
- 3/17: Deadline to register for Pico CTF
- 3/18: ASMA competition – QRT
- 3/23: STEAM Competition at Pine-Richland HS
- 3/27: Gene Team application deadline
- 3/28: CMIMC Math Competition
- 3/28: Watch FC compete on KD Quiz at 11am on KDKA TV!
- 3/30 – 4/3: Spring break

LISTEN TO A LIFE STORY CONTEST

When young and old come together, they can change each other's lives, their community, and even the world. Big things happen when you listen to a life – you travel time, learning from the past for a better future.

The Legacy Project's 25th annual Listen to a Life Story Contest runs to April 17, 2026. The contest is open to young people 8-18 years, with a grandparent or grandfriend 50 years or older (cannot be a parent). To enter, all you have to do is Read, Listen, Write! Check out all the details at <https://legacyproject.org/7gen/Italcontest.html>

EXPERIENCING ARCHITECTURE

SUMMER DESIGN STUDIO
FOR HIGH SCHOOL STUDENTS

July 6–24, 2026

During the immersive summer program, you will:

- develop foundational skills for architecture, including sketching, drawing, and model making
- work on your own design projects using Pitt's architecture studios and makerspaces
- learn how architects and related professionals work through office tours, construction site visits, and walking tours of notable buildings in and around the city.

The summer design studio is open to all students entering grades 9–12.

Ready to start? Interested students must submit an [online application](#), including:

1. A brief essay on what you hope to gain from the program
2. Two personal references

Applications are due by **April 3, 2026**. Decision notifications will be emailed April 17.

Free Architecture Summer Program at the University of Pittsburgh

This summer will be their **5th annual Experiencing Architecture summer program** taught on the campus of the University of Pittsburgh. The program is taught by two licensed architects and will spend three weeks working through an architectural problem with students, building models, sketching, and using drafting/modeling software.

Students will also get out into architecture firms, do walking tours, and always try to squeeze in a trip to Fallingwater if they can. The program is perfect for artistic students, those interested in sciences, and anyone who might be considering a career in design, architecture, engineering, or construction.

The program is three weeks long, from July 6th through July 24th, and is open to all students who will be entering grades 9–12 in the Fall of 2026. There is no application or program fee, this is accomplished through a generous and collaborative effort geared toward making architectural education more accessible.

Application deadline: April 3rd

PITTSBURGH HISTORY &
LANDMARKS FOUNDATION

2026 Landmarks Scholarship

College-bound high school students who live in Allegheny County, have a 3.25 grade point average or above, are involved in their community, and care deeply about the Pittsburgh region are invited to apply to the Landmarks Scholarship Program.

Since the program's inception in 1999, 94 graduating seniors from area high schools have been awarded scholarships for book and tuition expenses to colleges or universities of their choice. The scholarship award increased from \$4,000 to **\$6,000**. The scholarship is **payable over four years**. In addition, **74 students** have been awarded Honorable Mentions, a one-time award of \$250. The scholarship is **payable over four years, and it can be used for book and tuition expenses**.

For more information, and the link to the application, please visit <https://phlf.org/education-department/scholarships/>

Applications are due April 14th!

Have you ever wondered how modern buildings go from idea to reality?

What if you could learn how to design our future buildings?

Building Our Future invites high school students to explore the artistic and technical aspects of designing high-performance buildings. This five-day, overnight summer camp features experiences curated by architectural engineering professors representing specializations in structural, construction, mechanical, and lighting design.

Campers will engage with top design experts, tour historical architecture, apply light to reshape our buildings, and more. They will experience Penn State campus life by staying in residence halls, eating in dining halls, and exploring campus favorites. Campers will study how architectural engineering enhances the built environment, improves our well-being, and contributes to sustainability by **Building Our Future!**

Who: High school students ages 15+

When: July 13–17

Where: Penn State, University Park

Cost: \$1,150

SUMMER HEALTH CAREER ACADEMY

July 13-17, 2026

The Summer Health Career Academy (HCA) is coordinated and supported by the Southwest Pennsylvania Area Health Education Center (AHEC) in partnership with the University of Pittsburgh School of Medicine. It is designed for **current ninth and tenth grade students** who are interested in learning about opportunities in various health careers and the academic preparation necessary for these careers.

The Health Career Academy provides students opportunities to learn about:

- Health career opportunities
- Health career pathways
- Public health issues
- Health career shortage areas
- Medical terminology
- Health related cultural competency

During this 5-day experience, students will **interact with practicing health professionals, engage in activities related to health and wellness, and research a specific health profession.**

The Academy will take place **July 13-17, 2026, from 8:45a-3:00p,** at the University of Pittsburgh School of Medicine (3550 Terrace St, Pittsburgh PA 15213)

The cost for the program is \$250 for course materials and lunches during the academy. **Scholarships are available for those who demonstrate need.**

HOW TO APPLY

- 01 Complete an online application, found at: <https://www.southwestahec.org/hca>; OR by scanning the QR Code.
- 02 Email a letter of recommendation from a teacher, school counselor, or school administrator.
- 03 Email a one-page letter of interest, written by the student, expressing interest in the program.

All applications must be received by **May 3, 2026.**

Materials can be emailed to:
Dr. Lynne Williams
Executive Director
Southwest PA AHEC, Inc.

Carnegie Mellon Informatics and Mathematics Competition (CMIMC)

March 28, 2026

Hosted by Carnegie Mellon University Students

- An annual premier mathematics and computer science competition.

Students / Team Registration: <https://cmimc.com/>

- Student participation is independent from FCAHS. Students are responsible for transportation and any obligation to participate.

Competition:

- Consists of multiple rounds (TCS, Team, Individual) with a variety of topics spanning Algebra, Geometry, Combinatorics, Computer Science, etc.
- Prizes given at the end of the contest to our top-ranked individuals and teams!

Goal: Encourage interest in mathematics and computer science among high school students and to provide them with a challenging and educational experience.

BILL of RIGHTS INSTITUTE

Students entering 10th, 11th, or 12th grade

Rising leaders seeking to improve & strengthen public speaking & debate skills

Written prompts and letter of recommendation

FOUNDING forward

Debate & Leadership Institute

A 5-day debate and leadership experience where students can learn and improve their debate and public speaking skills.

Program Dates: July 20-24, 2026

Hosted and presented in partnership with Founding Forward and The Bill of Rights Institute

- Location:** The Debate & Leadership Institute held in Valley Forge, Pennsylvania
- Length:** 5-day, overnight debate program
- Participants:** 10th, 11th, and 12th grade students from across the nation gather to strengthen their debate skills and deepen their civic knowledge.
- Seminar:** Expert-led discussions, real-world debate training, and a competitive tournament, this experience will shape the next generation of engaged citizens.
- Cost/Scholarship:** \$1,150. **Many students can attend free of charge thanks to generous donations from Founding Forward donors, chapters, and partner organizations.**

University of Pittsburgh
Institute for
Cyber Law, Policy, and Security

Air Force Association CYBER CAMP

REGISTRATION OPENS APRIL 16TH!

CyberCamp will be held Monday-Friday, June 22-26 from 9:00 AM-1:00 PM. **Students are required to attend all five days.**

The **FREE** camp is designed for a range of technical skill levels, including introductory digital literacy, and is focused on cyber ethics and systems security. Taught by cybersecurity professionals from the University of Pittsburgh and elsewhere, students will learn vital skills like cyber hygiene, Windows and Linux security, and have the opportunity to network and learn about potential career opportunities.

Students can attend the Standard or Advanced Camp. Advanced Camp students are required to have participated in a previous CyberCamp. If you are unsure which is right for you, visit the FAQ page on their website or email afacamp@pitt.edu.

Register at:

<https://www.cyber.pitt.edu/cybercamp>

SAGE USA Competition

USA teenage entrepreneurs!

The SAGE USA National Competition is where teenage entrepreneurs from across the country showcase their businesses and compete for a chance to represent the United States at the prestigious SAGE World Cup. Join us as we celebrate innovation, creativity, and real-world impact driven by young leaders.

<https://www.sageglobal.org/usa-competition>

For the SAGE USA National Competition, teams will participate in a 20-minute session designed to replicate an in-person experience, consisting of a 13-minute live video presentation followed by a 7-minute Q&A session. While slides are encouraged, they are not required.

Content:

Teams should present their business, including key operations, impact, and achievements. Audio-visual elements such as slides, videos, or graphics can be incorporated but are optional.

picoCTF 2026 Competition

The Competition

picoCTF is the largest cybersecurity hacking competition for middle, high school, and college students. Participants 13 years and older of all skill levels are encouraged to compete. Competitors must reverse-engineer, break, hack, decrypt, and think creatively and critically to solve the challenges and capture the digital flags.

Competition prizes have eligibility requirements, but everyone is encouraged to play for fun and learning.

INSPIRING TOMORROW'S ENGINEERS

CampBioE 2.0 2026

Registration and Program Dates:

Week 1: June 22 - 26, 2026 – High School 3D Bioprinting

Week 2: July 6 - 10, 2026 – High School 3D Bioprinting

About CampBioE 2.0

CampBioE 2.0 is a dynamic day camp that engages scholars in the wonders of science, technology, engineering, mathematics, and medicine (STEM+) through exposure to cutting edge, hands-on activities related to bioengineering and STEM+.

This innovative program is designed to

- Inspire and educate the next generation of scientific and medical professionals, develop leaders in STEM+ with backgrounds and perspectives that can identify and serve the needs of all members of our communities, and provide 2nd – 12th grade scholars from all socioeconomic backgrounds with an opportunity to experience STEM+ in a dynamic and bias-free environment.

Location:

University of Pittsburgh
Community Engagement Center -
Homewood
622 N Homewood Avenue
Pittsburgh, PA 15208

Details:

Monday - Friday, 9:00 AM – 4:00 PM

Light breakfast and lunch provided

Registration cost: \$500*

*The camp registration fee will be waived for scholars whose household qualifies for the free/reduced lunch plan

Are you  interested in biology?

If so, the Gene Team program at Pitt would love to hear from you! We are looking for a group of scientific-minded high school students who want to learn more about Biology while developing laboratory skills! You will be immersed in a current research project from a lab at Pitt over the course of the 4-week program. Additionally, we will take time to focus on strategies and skills that will be invaluable for applying to and succeeding in college.

No prior lab experience is necessary. Pitt's Biology Outreach team will provide you with all necessary safety training, scientific background, and instruction and you will work in a team with fellow high school students.

Program details:

Location: Langley Hall, University of Pittsburgh

Dates: June 22nd-July 17th, 2026, 9am until around 3pm Monday-Friday

Contact: Dr. Becky Gonda
Email: reg11@pitt.edu
Jess Robertson
Email: jah99@pitt.edu

Applications Due: March 27th, 2026

To apply, visit:

<https://www.biology.pitt.edu/k-12-outreach/gene-team>

<https://www.engineering.pitt.edu/departments/bioengineering/campbioe/>

FCAHS College in High School Course Offerings

College in High School (CHS) courses provide high school students the opportunity to earn college credits and receive a grade on a university transcript for courses successfully completed. Students enrolling in the CHS courses will be required to pay a fee to the university for each course. Additionally, students may elect to take these courses without earning college credit. Fox Chapel Area High School currently has concurrent enrollment agreements with the University of Pittsburgh, Duquesne University and Seton Hill University.
